

GAMEVERSE

GAME 1 : BOUNCE TO BRAIN

1. Each team must consist of 4 participants.
2. A start point and end point are marked for the first challenge, which will be attempted by Participant 1.
3. A problem-solving task is placed at the end point for Participant 2.
4. A movement-based coordination layout with specific placement instructions is prepared for Participant 3.
5. The fourth participant will complete a designated run through the activity area three times, and the total time taken will be recorded.

GAME 2 : FLIP TAC TOE

1. The game is played between two teams, with 2 players in each team.
2. Both teams will attempt the challenge simultaneously.
3. If a team completes the attempt successfully, one member places a mark on the grid.
4. Teams must alternate roles between attempting and placing after each round.
5. The first team to complete the required pattern on the grid wins the game.

GAME 3 : Bottle WALKER

1. The game is played between two teams, with 2 players in each team.
2. Both teams will attempt the challenge simultaneously.

3. If a team completes the attempt successfully, the object moves one step forward.
4. The team that reaches the final position first is declared the winner.

GAME 4 : PICTURE PLOT

1. The game is played in teams of 2 members.
2. The game consists of two rounds.
3. Teams must create a connected story using the given visuals.
4. Each story must include a title and a clear message.
5. Teams are judged based on creativity and clarity, and the best teams win.

GAME 5 : SPELL BEE

1. The game is played in teams of 2 members.
2. Words will be given orally by the host.
3. Teams are allowed to ask for one clarification per word.
4. Correct spellings earn points; incorrect spellings lose points.
5. The team with the highest score at the end wins.
